In this mammoth and palatial workshop two hundred persons are constantly em-ployed in putting up Dr. Pierce's Medi-

While the Golflen Medical Discovery's curative effects are almost immediately telt, it is not merely a temporary stimulant, but is as certainly a safe and complete cure, in all cases for which it is recommended as it is that certain misery and death wil follow their neglect. Dr. Pierce's Golden Medical Discovery will not cure club feet, will not refurnish armiess or legless unfortanates with new and perfect limbs, and it is not guaranteed that even a dozen bottles applied to any stray portion of a second-hand seleton will develop such member into an animate, human form divine (?). In brief, it is not asserted that this medicine will lor can, counteract the decrees of Providence. But in all cases where a high state of civil-ization and cultivation has engendered dis-ease and suffering, whereby Ged's natural man has become a nervous, artificial being, the Gelden Medical Discovery will pasitive-by restore to him the strong, vigorous, selfasserting life, from which almost uncon-sciously, he had drifted far, and perhaps hopelessly away. It is claimed and guaranteed, if this medicine be used as pre-scribed, and faithfully persevered in a reasonable time it will permanently cure liver complaint, and the various blood disorders competant, and the various blood disorders consequent upon torpor of the liver, in all their various forms and ramifications, in-cluding bronchitis, consumption, which is scrotula of the lungs, dyspepsia, costive-ness, sick-headache, skin diseases, fever and ague, malaria, and other disorders

arising from poisoned or deteriorated blood.

This wonderful medicine cures all humors, from the worst scrottla to a common blotch, pimple or cruption. Erysipelas, sait-rheum, iever-sores, scaly or rough skin, in short, all diseases caused by bad blood, are conquered by this powerful, purifying and invigorating medicine. Great eating nicers rapidly heal under its benign influences. Especially has it manifested its potency in curing tetter, boils, carbuncles, scrolulous sores and swellings, white swellings, goitre or thick neck, and enlarged glands. Consumption, which is scrofulous disease of the lungs, is promptly and posi-tively arrested and cured by this sovereign, and God-given remedy, if taken before the last stages are reached. For weak lungs, spitting of blood, consumptive night-sweats and kindred affections, it is a sovereign remedy. For indigestion, dyspepsia and torpid liver, or "biliousness," Golden Medical Discovery has no equal, as it affects per-

fect and radical cures.

To all suffering from lassitude, weariness, despondency, lack of vigor or ambition, be it man, woman or child, Dr. Pierce's Golden Medical Discovery will speedily impart new tone, vigor and life to the whole sys-tem. The baggard face will grow found. ten. The haggard face will grow found, ruddy, and beam with the expression of long lost confidence. Hadrid! !

Let no sufferer be discouraged because he or she has tried other medicines without benefit. In fact, these are the cases the World's Dispensary Medical Association particularly desire to reach through their Dr. Pierce's Golden Medical Discovery. When all other medicines fail let this be tried, and no one will be doomed to further disappointment.

The Golden Medical Discovery is a pre scription of a physician with a wide-awake reputation and an honorable position to maintain. It is far beneath the dignity of Dr. Pierce to lend his name to any vile trum, or catch-penny preparation, whereby the public may be deceived. Having used his Discovery for many years in his unprecedented private practice, he is convinced it is indeed a specific in diseases mentioned. Desiring this marvelous cure shall benefit,

not only those with whom he comes per sonally in contact, but that all mankind may be embraced in his grand plan for the amelioration of human suffering, the Doc-tor, through the World's Dispensary Medical Association, earnestly and most confidently recommends his Golden Medical Discovery to the public at large, assured the most skeptical will be thoroughly convinced of its worth by a trial of a single bottle.
